PROJECTS

We clone the ASOS website

we completed project in 5 days

ASOS is one of the leading fashion product brands and we made a clone of its online retail platform. This was the group project team of 5 members.

Features

- End-to-End product purchasing flow from the website.
- Different Sorting features for products.

Tech-Stack

CSS | HTML | JAVASCRIPT

Area of Responsibility

My contribution to the ASOS website was the cart page and payment page. My role in this project as a leader manage each file, marge them, and push it to git hub.

We clone the KindMeal website

we completed project in 5 days

KindMeal is an online food delivery website and we made a clone of its online retail platform. This was the group project team of 5 members.

Features

- End-to-End product purchasing flow from the website.
- Different Sorting features for products.

Tech-Stack

CSS | HTML | JAVASCRIPT

Area of Responsibility

My contribution to the KindMeal website was the homepage, cart page, and payment page. My role in this project as a leader manage each file, merge them, and push them to the git hub.
